

BREAKTHROUGH SOLUTIONS FOR GREENER FERRIES

Overcoming regulatory hurdles and accessing funding for alternative fuel technologies

Marine Log's 35th Annual FERRIES Conference will take place in San Francisco on November 1 and 2, 2022. FERRIES 2022 is an opportunity for the ferry industry to come together to share experiences, network, look for new suppliers and reconnect with existing suppliers.

This means it is an opportunity to put your company at the center of the action through sponsorships designed to provide maximum return on your investment.

With major funding opportunities under the Bipartisan Infrastructure Act, the U.S. ferry industry is focusing on growth—and the green innovation required to qualify for that funding. FERRIES 2022 will put a major focus on green tech, electrification, new fuels, and on what's involved in unlocking grant funding and overcoming regulatory hurdles.

"I found the Marine Log FERRIES 2021 conference in NYC to be the best ferry specific industry event in the Americas in 2021, and one of the best I've been to in the 25+ years I've been involved in the marine industry. As a potential systems integration supplier to ferry operators, many of my potential clients were in attendance so huge value for my investment. The speakers at Marine Log FERRIES 2021 were also top notch and recognized as leaders and experts on the topics they presented. I would definitely recommend future attendance of this event to anyone looking to learn about ferry industry best practices, new technologies and business trends."

- Bruce Strupp, Senior Account Manager, New Sales- Ferry, ABB Inc. Marine & Port
