

CUNARD

On 4 July Cunard celebrates its 183rd birthday and in celebration have unveiled a new cutaway image of Queen Anne. The cutaway is inspired by vintage ship illustrations of Cunard's past, and features signature Cunard venues, new spaces to be revealed on Queen Anne, and quirky references to famous faces that have travelled on the Cunard fleet, all sketched by artist Dominik Bulka.

Did you know the premiere of *The Greatest Showman* took place on Queen Mary 2 in 2017? This was the first time a Hollywood movie premiere had taken place on a passenger ship.

Although Queen Anne won't carry pets, Queen Mary 2 ensures four-legged friends travel in as much style as their owners. There are 24 kennels, space to play and an owner's lounge, and even a British lamppost from the Cunard building in Liverpool and a New York City fire hydrant to prevent homesickness!

Coming soon on Queen Anne is a new entertainment space – the Bright Lights Society. This exhilarating show bar is inspired by bold electric light installations.

The Cunard Queens boast some of the liveliest nightclubs at sea. Did you know that in G32 on board Queen Mary 2 and the Yacht Club on board Queen Victoria and Queen Elizabeth guests can enjoy a silent disco?

Many famous faces have travelled with Cunard over the years, including Sir Winston Churchill, David Bowie, Ed Sheeran and Elizabeth Taylor. Who else can you spot on board?

Since 1930 Cunard red bellhops have been synonymous with Cunard's fleet and are always there to welcome our guests on board.

At the helm of Queen Anne will be Captain Inger Klein Thorhauge, Cunard's first ever female captain. She recently celebrated 25 years of service and has also been Captain of Queen Victoria and Queen Elizabeth.

Enough tea is consumed each year on Cunard's fleet to fill an Olympic-size swimming pool.

In 1963 Cunard transported a very special guest, Jimmy the Hippo, from Naples to Chester Zoo. He travelled on deck with an awning over his cage and received regular cold showers.

On board Queen Elizabeth 327 bottles of champagne, 297 bottles of red wine and 327 bottles of white wine are consumed every day. Here's to raising a glass on board Queen Anne – cheers!

QUEEN ANNE

Arriving May 2024
